It is recognized that the prices shown for these poles are higher than normally paid. We quoted the disposal agency fifteen percent less than these prices but they had bids that were equal to the prices shown and therefore would not accept any offer from the cooperatives for less.

The disposal agency has refused to hold these poles longer than one week from the date of this note. It is, therefore, urgent that you telegraph your orders immediately upon receipt of this order so that we can notify the disposal agencies and they can clear the yards.
